EVERY LAP COUNTS

The Saxon Cancer Society e. V. (**Sächsische Krebsgesellschaft**) invites you to the "Running Against Cancer" (Laufend gegen Krebs) charity event in Chemnitz. The eleventh edition of the running event aims to raise funds to help people suffering from cancer and their relatives.

As a **participant** in the running event, you complete as many laps as you could reach. For each round, you (or a sponsor you have won) pay a voluntary donation instead of an starting fee.

As a **company**, we invite you to support runners and running teams or to provide a **team** and thus support the projects of the Sächsische Krebsgesellschaft.

You can help us to help. Whether with your own team in the form of a team relay run or as a sponsor of an individual run - in any case you will benefit from numerous advertising opportunities and comprehensive communication of this event.

We would be pleased to welcome you as a partner.

You can pay your voluntary donation on site, send it to the Saxon Cancer Society via Paypal or transfer it to the donation account. Thank you!

Purpose of use: Laufend gegen Krebs Chemnitz

SUPPORTED PROJECTS

The proceeds from "Laufend gegen Krebs" will support the following projects:

Improving the range of exercise options for children, young people and adults suffering from cancer in the Chemnitz area

Exercise interventions carried out under expert guidance have been proven to reduce the side effects of cancer therapy and increase the performance and self-confidence of those affected. Since there are still few special exercise offers in the Chemnitz area, the Association for Health Sports and Sports Therapy Chemnitz (Verein für Gesundheitssport und Sporttherapie Chemnitz e.V.) wants to establish long-term rehabilitation sports groups for oncological patients in children, adolescents and adults. Those affected should also be individually informed about the topic of sport and cancer. In addition to sporting cooperation, the focus should also be on establishing social contacts and the mutual exchange between participants.

Family weekend for young families affected by cancer

The Sächsische Krebsgesellschaft e.V. would like to offer young families affected by cancer the opportunity to leave their illness behind them for a weekend, have fun together, strengthen mutual trust and also experience exchanges with other families.

Shared apartment project for people affected by cancer

The aim of the project is to create a shared apartment for those affected and their relatives in an age-appropriate living environment in order to ensure independent living in community with other affected persons and their relatives for as long as possible. This creates the opportunity for mutual help and support and is intended to make dealing with cancer easier.
